Col. Sharpach has returned from his visit in Pennsylvania. After fourteen years' residence in the Happy Valley he thinks the fields have grown smaller and the hills higher.

Mr. G. E. Davis the general western agent of Jones, Primley & Co.'s specific, "speedy cure," Iron and Wahoo tonic, etc., sold largely by our druggists, was in the city yesterday.

Mayor Baker, the grain buyer at Clearwater, was in the city yesterday. He says there will be some good wheat raised in that vicinity, and in the neighborhood of Conway there is some good wheat.

Robert J. Burdette says: "I consider Hollen Potter the grandest woman, in her readings and impersonations, on the platform to-day." Her impersonations of prominent platform, stage and pulp characters is marvellous.—Council Grove Herald.

Charles Kookler, brought seven young cotypes in a box to the city yesterday, with the expectation of getting a bounty on them. They were curious looking little chaps and rather bashful among strangers. They were captured on Medicine river, and were about two months old.

Mr. Kuhn, of Greenville, was in the city yesterday. To the question of how the new town is getting along, he said: "All right, there is no house in the town, and would have been three months ago, but I don't see more lots. Before I sell any lots I bore down to see how thick dirt coal. You don't find this Dutchman."

Mr. R. E. Hamilton, the renowned pool seller, was in the city yesterday en route to the Winfield races; also, Mr. Wagg and Mr. Askey. They had two carloads of runners. Mr. H. in conversation with an EAGLE reporter, said that a large number of horsemen who were anxious to be at our race could not make ours and the St. Louis meeting, they being too close together.

The new Turner society, "Vorwarts," which is composed of some of our best German citizens, will give their inaugural ball at the opera house, next Monday evening, May 25. Admission tickets can be had from any of the members. The society members propose to make their entertainment first-class in every respect and a pleasant time may be anticipated by all who attend. Simon's operatic orchestra will furnish the music.

Squire O. Hess, who has just finished up the census and assessment of Grant township, informs us that the population figures up over 1,200, an increase of 188 in a year, but that there are 110 more males than females, which is a state of affairs which he hopes to see remedied soon, although he did not deny an intimation of how this surplus of baby boys might be squelched. The township shows a personal property list over and above exemptions of \$92,000.

Dr. Whitcomb was over from Augusta yesterday and made a call. Being an educationalist of much experience he is intensely in earnest touching the location of the new college to be founded by the M. E. conference. He says rather than take any chances he would be willing to stand his chance of a \$50,000 premium. The doctor is a very clear-headed man, nevertheless, and concludes that Wichita would help such a school just as much as the school could possibly help Wichita, therefore agrees with all the EAGLE said yesterday morning.

THE WHEAT PROSPECT.

Senator John Kelly was on our streets yesterday. The EAGLE reporter asked him what he was doing out in Attica. Well, he said, he got up regularly every morning and took a squint at the clouds and hurried back into the house and kept from getting wet. He says he has one hundred acres of corn to plant and does not intend to plant for a month unless he can plant without "hogging" it in. The senator thinks it makes no difference when he plants, that he will raise more corn than the man who "hogs" his corn in the mud. Senator Kelly says that farmers in Attica are now convinced that the prospect for a crop of wheat next harvest is daily becoming more gloomy, that fully half the wheat was plowed up and every imaginable enemy of the wheat—rust, blight, chinch bugs, etc.—are working on the young sickly plant. The following gentlemen were also interviewed as to the wheat prospect.

Col. Russell, of Union township, thinks his township will harvest half as much wheat this year as last. John Kelly, of a township, says one-fourth of a crop. T. Brown, of Park township, says one-fifth of a crop; Albert Law, of Rockford township, says one-third of a crop; J. Kinyon, Waco township, says one-fourth of a crop; Col. Sharpach, of Gypsum township, says only one field in his township worth harvesting.

A. R. Blackburn, of Harper county, says one-third of a crop; Ben Robinson, of Butler county, says one-third of a crop; E. C. Cole, of Kingman county, one-third of a crop; J. T. Hinkle, of Sumner county, one-fourth of a crop; James Brown, of Cowley county, one-fourth of a crop.

A MOTHER DROWNED.

Hon. R. J. Hinkle writes us the news of a dreadful accident. Last Sunday, several eight miles south of Clearwater, near Room postoffice, a party consisting of some six or eight went out for a boat ride on the Nimssech, among the party Mrs. James Morrison and her eighteen year old son and a baby in her arms. By some chance, or mischance, the party lost control of the boat in the swift rushing current and it was in an instant swamped. Mrs. Morrison and her child being thrown into the wild and murky waters. The mother, in her wild despair, managed to keep up till the baby was reached for and saved by the son, but the righted boat being nearly full of water he had no place to lay the child while he should endeavor to save the struggling mother, who sank before his eyes and was not seen again. Up to last evening her body had not been found. The rest of the party all managed to reach shallow water and the shore. The scene of the disaster was just across the line in Sumner county near Boon. Mr. Morrison, who is left to mourn the terrible fate of his wife, is one of the oldest settlers of Sumner county, moving to his present home from Indiana.

H. D. HENSEMAN, P. C.

JOHN A. WALLACE, Adj.

Wichita, Kan., May 20, 1885.

Geo. Lee and Frank Owens were in the Citizens bank building yesterday talking over old war times. Some great battles were fought over again. Yank says Geo. Lee was one of the few men in the southwest who made a brilliant record. He was called the Rough Rider of the Southwest. Yank says when he was fighting the Rebel Bob river, that they captured some rebel prisoners; one of them asked where he was from. Yank told him that he was from Kansas. Then the Rebel told him of a desperate battle that he had been in, when a Union officer rode along in front of their line with one leg thrown over the horn of his saddle, seemingly not paying the least attention to the rebel shot and shell. The rebel said it was a mystery to them how the man ever got through alive. He said that after considerable inquiry they ascertained that the officer was Gen. Lee, of Kansas.

Mrs. Laura J. Block, who has been a resident of New Orleans for thirty-five years and who lost her husband by death in that city lately, and who has some relatives in this city, has taken the J. M. Steele house, which has been elegantly furnished, and she is prepared to take a limited number of table boarders and to furnish two or three parties with rooms. The house has bath rooms and is very conveniently situated in reference to the business part of the city. References required and given, as none but what can furnish them are desired.

Messrs. Pulaski & Wood, wholesale fruit and fancy grocery dealers, Main street, next to the Wholesale Grocer Co., are receiving large accessions to their stock. They have a heavy stock of splendid Mexican oranges.

The great man enter and wander, Capt. A. Tuttle, ex-governor of the Canibal Islands, will deliver one of his wonderful lectures at the court room to-night, admission 25 cents. There will be lots of fun. It is said the Garfield Post, under whose auspices he is to lecture have agreed to furnish him a subject for illustrating his cannibalistic ability. He is to whet his teeth on Hank Heiser, man's wooden leg and then proceed to make a meal of Jake Balderston. As a lecturer Capt. Tuttle has a good reputation.

It appears that even the little consolation which the cattleman must have, namely, that the cattleman must leave Oklahoma, was poor consolation after all. A gentleman just returned from the promised land yesterday says there are no boomers there except a few tamblers, but the cattleman are there in full possession and have improvements, too, and no effort is being made to bounce them.

Judge Wm. W. Thomas leaves this morning on a two weeks' visit east. He will visit friends in Ohio and Indiana. He says he could not get along even for two weeks without keeping the run of what was going on in Kansas, therefore he ordered the EAGLE to follow him during his stay east. We wish the judge a pleasant trip and a safe return.

Squire Wm. Ross, the hard of the Nimssech was in town yesterday. He says in gone days when he had control of the Nimssech, it was a well behaved stream as you would wish to see, but now that every Tom, Dick and Harry are running it, it gets on a regular run.

Two elegant chaps of the colored persuasion, wanted to erect a portion of Main street with each other's grave yesterday afternoon, but Hank Brasier, not admiring that style of decoration, hustled them off to the pen.

Helen Potter will contribute to the pleasure of the occasion on Memorial Day.

S. H. DARRETT'S NEW MONSTER RAILROAD SHOWS.

The above named monster confederation of Mammoth Railroad Shows will exhibit at Wichita on Tuesday, May 26, in all its gigantic completeness, immensity, and with two hundred first-class all superior stars, led by Mr. James Robinson, the world's champion bareback rider, who leaves retirement, wealth and luxury for a farewell season with fame equal Caesar's. We are pleased to be able to state that this is the acknowledged-by-all big show of the world today—the very largest, the very choicest and the very best. It is also the most original, the brightest, and the most original, and has a greater collection of animals and inanimate wonders beneath its canvas than any other show traveling. Every one—yes, every one—has contributed to its wonderful collection. It has a menagerie unexcelled in wonderful features. The largest living elephant, "Nancy," whose weight is over ten tons; the only living hippopotamus in the world; the only living two-toned white rhinoceros; and a thousand glittering curiosities as yet beyond our ken but sure to be seen by us. It has 200 first-class star performers, in their wonderful acrobatic exhibition, a great elevated stage, and wonderful racing carnival, and—well, in a word it has a thousand new features, which, when they start, will startle nature, justify itself to the enraptured cognomen of "The Greatest Show on Earth."
